

Enclume's

*Enclume Design Products, Inc., America's foremost manufacturer of premium quality cookware racks and accessories, is your complete pot rack resource! Enclume now offers a special collection of opening price point racks designed especially for middle-income homes. Ten models fit a variety of spaces and places typical of the smaller kitchen.*

The components for these racks are made in China, shipped to our Port Hadlock, Washington, factory where each product is inspected, packaged and sent to its destination.

This line of racks features the easiest installation system ever! All racks include new-technology DRYWALL anchors that install in just seconds. No need for joist or stud attachment, no handyman required.

All Rack It Up! pot racks are constructed with 1/8" thick hot-rolled steel strong enough to hold a 125 pound anvil! These racks are finished with a gray "simulated hammered steel" powder coat finish which ensures good looks and a long life.

All pot racks are packaged ready to assemble, and can be installed with easy-to-follow instructions. They are light weight and easy to handle. Special user-friendly barrel bolts make assembly quick and easy. Ultra-affordable prices, together with style, assortment, and size, make these racks popular.

*RACK IT UP!* is unmatched for quality and value and is backed by Enclume's five year limited warranty.
